© 2013 Royal Building Products

Royal reserves the right to discontinue or modify any of its products without prior notice. Royal shall not be liable for variations in color or gloss compared to product that has been installed and exposed to normal weather conditions.

### Warranty claims:

The buyer has to provide a written description of the damage and manufacturing defect together with original proof of purchase to the following address:

**Royal Building Products  
Warranty Department  
91 Royal Group Crescent  
Woodbridge, Ontario  
Canada L4H 1X9**

The consumer must provide date of installation and proof of property ownership. The claimant may be required to submit a sample of the defective materials for analysis. Royal will analyze the material claimed to be defective and determine the validity of the claim.

### For your protection:

Portsmouth Shake & Shingles is a very low maintenance product. Common sense should be used to keep siding from melting or burning. It is important that all sources of heat and flames and combustible materials like dry leaves, trash, etc., be kept away from Portsmouth Shake & Shingles.

If the original homeowner or transferee is shown to have neglected to provide proper maintenance to the siding, this warranty will be null and void.

Limited Lifetime Warranty  
Limited and Transferable

 **ROYAL**® Building Products

## Quality warranty:

Portsmouth™ Shake & Shingles products, including Cedar Shingles, 8' Long Length Cedar Shingles, Hand-Split Shake, Staggered Edge Shingles, T45 Perfection Shingles and Half Rounds, are made to respond to the industry's high standards and North America's very strict specifications.

Opting for continuous improvements in our products, we are able to provide a transferable Limited Lifetime Warranty.

This warranty supersedes all other warranties, liabilities and obligations; whether oral, written or implied.

## Terms:

Royal® Building Products, a brand of Royal Group, Inc., offers a warranty to the original homeowner for the replacement or restoration of any product when installed in accordance to the Manufacturer's instructions and exposed to normal weather conditions. Royal also warrants that all sidings will be free from manufacturing defects. These defects include cracking, warping, peeling or excessive discoloration.

## Registration and warranty transfer:

This warranty will be valid only after the original homeowner completes the attached Warranty Registration Form and mails it to the address on the card. Registration is not required as a condition to performance under this Warranty by Manufacturer. It is, however, the most convenient means of establishing proof of identity of the Original Purchaser/Owner and date of installation of the products. Manufacturer requests that the Warranty Registration Form be completed at the time of installation.

To transfer this warranty, the new owner must register the transfer information by filling out the attached Warranty Transfer Form and mailing it to the address on the card. The card must be sent in within 30 days of the transfer of ownership of the residential or commercial property. (See below for original owner schedule).

## Coverage of the Limited Lifetime Warranty:

Number of years after installation	Covered warranty on prorated basis:
0-7	100%
8	80%
9	70%
10	60%
11	50%
12	30%
13	20%
14 or more	10%

The warranty can only be transferred once by the original owner to an immediate subsequent purchaser (transferee). Upon this transfer, the siding will be covered under the Transferee Warranty coverage schedule and is calculated from the original date of siding installation.

It is important that Royal be notified of the property transfer and documentary proof of this transfer be submitted to Royal to ensure coverage. (See below for transferee schedule).

## Transferee schedule:

Number of years after installation	Covered warranty on prorated basis:
0-5	100%
6	80%
7	60%
8	40%
9	20%
10 or more	10%

## Limitations:

Royal's warranty does not provide protection against any damage caused by events beyond normal weather conditions, including but not limited to:

- Misuse, negligence or improper installation
- Pollution, mildew, exposure to chemical products or inappropriate cleaners
- Alterations to siding like painting or varnish
- Improper handling or storage
- Defects in material or wall on which Portsmouth Shake & Shingles was installed, caused by movement, cracking or settling of wall or foundation of building
- Impact of foreign objects, hail, lightning, fire, hurricanes, tornados or any other catastrophic phenomena of nature
- Vandalism and intentional damage

Geographic situation, sunlight exposure, air quality and climatic factors may gradually weather the siding. If the siding is determined by Royal to have faded beyond normal expectations, Royal will replace the defective material.
